I got me a woman
She's one of a kind
You know I'll never leave her
She was too hard to find, yeah.
I waited for such a long, long time
Just to get what needed
She put her legs around my head
And then she started squeezin'

Now, animal woman, you got me every night, yeah.
Now, animal baby, do it right.

Now that she knows what to do
She don't know when to quit
And even though I love her so
Five times is my limit.
She used to be so very shy
Much like the Virgin Mary
But that girl's never been the same
Since I took her cherry.

Now, animal woman, you got me every night, yeah.
Now, animal baby, do it right.
