

## Fly Away

(Phil Kennemore, Dave Meniketti, Jimmy DeGrasso)

I see rainbow colored dreams  
Skies of blue on the sea of green  
Little funky shack, I won't be turning back  
Tonight I'm gonna fly away, and there won't be no tracks

Like a rainbow shooting down  
Like an upside frown  
I see smoke rings through the trees  
I'm gonna up and disappear into the midnight breeze

Hey, let's fly away  
Up to the stars, way up in the sky  
Fly, fly away  
On my magic carpet ride

Night comes, and the wind calls your name  
Oh, sweet Jasmine blows to my face

Oh, your majesty  
Fly into your dreams  
Tonight I'll set you free  
Coming right through your window, gonna take you away with me

Hey, let's fly away  
Above the clouds and way up in the sky  
Fly, fly away  
On my magic carpet ride

Starlight, star so bright  
First star that I see tonight  
I wish I may, I wish I might  
Be the one to hold you tight

Like a rainbow shooting down  
Like an upside frown  
I see smoke rings through the trees  
I'm gonna up and disappear into the midnight breeze

Hey, let's fly away  
Above the clouds and way up in the sky  
Fly, fly away

On my magic carpet ride
