

Gimme The Beat

The beat goes on, pounding out it's changes
Sometimes I lose the rhythm 'long the way
It's up-side down, it's all so syncopated
Ahead, behind, the rhythm in my head

Well I know that time just keeps banging away
And I know that I'll find my way

Just gimme the beat
Point me in the right direction
Gimme the beat
And I'll be on my way
Gimme the beat
'Till I make my connection
And I know that I'll find my way

Step by step, I'm rolling with these changes
I'm back in time, it's all so clear to me
It feels so right, so uncomplicated
No time to think about what might have been

Well I know that time just keeps banging away
Count it down, I'm on my way

Just gimme the beat
Point me in the right direction
Gimme the beat
And I'll be on my way
Gimme the beat
'Till I make my connection
And I know that I'll find my way
