It's a cold, cold city
When you're out there on your own
What a shame and a pity
That no one wants to know

I see the people laugh and share
But for me there's no one there
This empty life just isn't fair
And the world don't see me here

CHORUS:

I'm on the lonely
Lonely side of town right here
I'm on the lonely
Lonely side of town

Well I never was a loner
How did I fall so far?
Tell me where did I go wrong
Did I stay away too long?

With my old friends it's not the same
Seems we don't know what to say
I understand but still it's strange
When your friends just fade away

CHORUS

I see the people laugh and share
But for me there's no one there
This empty life just isn't fair
And the world don't see me here

CHORUS
