Oh, it's coming on strong tonight  
And I feel it in my bones  
Oh, mister moon, take me away from this  
'Cause I feel like I've been tearing at my soul's insides

I'm talking 'bout you and me  
We want to be free to take it all  
And leave nothing

CHORUS:

You gotta take me to the other side  
Oh, until we break through free  
You gotta take me to the other side  
Oh, won't you take me to the other side of now

I feel the earth underneath me  
And it's talking to me like I was a child  
Everything above me  
Is like a photograph from a twisted point of view

Well I don't know where everybody's going now  
It seems like upside down is what is right side up

Oh, it's breaking us down  
Makes it so damn hard to just know what you feel  
I know there's something else  
Shake it up, dream it up  
Oh, better do more 'bout yourself

'Cause I don't  
Don't care what everybody's talking about  
Oh, if it just ain't real
